## ARL e-Portal

### Online Transport Services for Your Community

Add a live transport service enquiry service to your community web-site with ARL's e-Portal. Include transport offerings within the scope of your transport community, be it single or multi-modal, specific geographical coverage, import and/or export.

Let the transport providers in your community submit their transport offerings electronically or sign-up individually to ARL's e-Schedule platform.

### Value Add Services to Your Site

Enrich your community website with e-Portal. Build an online and interactive community with added value for

your transport community. Attract professional visitors to your community web-site by adding a live and dynamic transport request and reply service.

Imbed the online enquiry service by adapting the look-and-feel of your community web-site, powered by arl-shipping.com.

### Facilitate Online Quotes & Bookings

Facilitate that your web-site users swiftly and seamlessly obtain online freight quotes and submit online bookings from individual transport providers after having used your community web-site to identify the most suitable transport partner.

# ARL e-Portal

## For Transport Providers' Associations and Networks

Increase the market profile of your network as a whole: Enable that members can locate suitable agents, as well as shippers and consignee's can locate a suitable transportation partner.

## For Port Communities and Trade Facilitation Forums

Add an online transport service enquiry feature to your online community to facilitate trade and commerce within your port.

## For Online Shipping Gazettes and Industry Publications

Supplement or replace your printed sailings overview with an online enquiry feature, providing your readers with custom build transport offerings.

## Hosted Solution

ARL e-Portal is a web-based portal. It is hosted by professionals and available 24 hours a day, Sunday

through Friday. The application is secure, data transferred to partners is encrypted, and corporate users are authenticated with personal credentials.

## Functionality

- Online enquiry feature for matching corridors and departure or arrival times
- Dynamic, custom build transport offering listing including transport providers with matching service pattern
- Subscribe to regular updates for selected transport corridors by email
- Link to individual provider's online quote and booking facilities

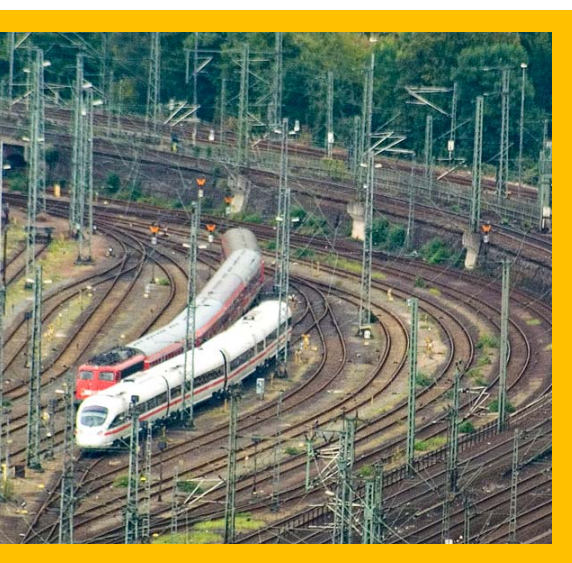

## No Investments, Pay-as-You-Go

No start-up fees, no additional hardware investment, only fixed monthly subscription fee.

## Getting Started

- Sign up to [arl-shipping.com/ep](http://arl-shipping.com/ep)
- Request your transport providers' schedules electronically
- Apply your style & colours and imbed in your community web-site

And your online portal will provide online transport enquiries to your members, partners, or visitors!
