ARL Yard miniInventory Platform

Keep Track of Containers

Manage the inventory of your container yard. Update gate moves, quay side crane moves and container moves within the yard. Locate containers easily on the yard when customers arrive to pick them up. Attach moves to your yard or quay equipment.

Provide your customers and their service providers with a public tracking feature on the Internet.

Load Lists, Plan and Report

Produce load lists with containers ready for loading for the arriving vessel, barge or block-train.

Generate monthly move lists as basis for customer billing. Print reports, export them to Excel or attach to e-mails.

Sign-Up and Go, No Investments

The mini-Inventory system runs on ARL servers available to you from an internet connected PC with a browser. You get your own login and start right away; no need for your own servers, special software or help from IT people. Create additional logins for your colleagues yourself and they get going too.

The inventory and all moves are shared between all users within the terminal.

ARL Yard mini-Inventory Platform

For Yard Operators

The solution is for medium sized or smaller yard and terminal operators managing containers and container moves on a yard. Best choice for operators with multiple staff who need to update and access the container inventory, but have no IT department.

Hosted Solution

ARL Yard mini-Inventory Platform is an internet application used by many transport companies, thus sharing the costs. It is hosted by professionals and available 24 hours a day, Sunday through Friday.

The application is secure, data transferred to the clients is encrypted, and corporate users are authenticated with personal credentials; a separate interface is used for public facilities. Requires PC with Microsoft Internet Explorer 6.0 or higher.

Main Functionalities

- Update gate-moves, quay-side moves, or yard moves
- List current container inventory
- Track & trace container by yard staff
- Public track & trace for the customers of the yard operator and their service providers
- Report individual yard equipment activity
- Generate load list

- Report monthly moves per customer
- Print reports, or export to Excel

No Investments, Move Fee Only

No subscription fees, no start-up fees. Only pay a fee per container move handled in the platform. Initial container moves fee is prepaid, additional container moves fee is invoiced regularly,

Getting Started

- Sign up to arl-shipping.com
- Define your shipping lines customers, vessels or strings
- Define your yard equipment and gate IDs (optional)
- Setup your yard coordinates
- Create user-ids for your colleagues

And off you go to a speedy start!
